

PROJECT REVIEW SHEET - EZ1

HISTORIC & CULTURAL RESOURCES REVIEW

Property / Client Name:	Wenatchee Watershed Riparian Prioritization, 11-1445
Worksite Name/Number:	Wenatchee Watershed (Worksite 1 of 1)
Funding Agency:	Rec. and Conserv. Office

Project Applicant	Chelan Co Natural Resource
Contact Person	Jennifer Goodridge
Address	316 Washington St Ste 401
City, State, Zip	Wenatchee, WA 98801
Phone	(509) 667-6682
E-Mail	Jennifer.Goodridge@CO.CHELAN.WA.US

Funding Agency:

Organization	Rec. and Conserv. Office
Address	PO Box 40917
City, State, Zip	Olympia, WA 98504-0917
Phone	360-902-3000
Contact	Marc Duboiski, Email: marc.duboiski@rco.wa.gov

PLEASE DESCRIBE THE TYPE OF WORK TO BE COMPLETED

(Be as detailed as possible to avoid having to provide additional information)

Provide a detailed description of the proposed project:

The Wenatchee Watershed Riparian Prioritization will identify existing riparian habitat condition ; prioritize potential riparian enhancement projects; identify where riparian enhancement projects can address limiting factors to support salmon recovery efforts; and identify sites where implementation of riparian plantings will help reduce water temperature standard exceedences. The study area for this report identifies existing conditions and potential riparian planting projects on approx. 1,900 parcels or 1,190 acres in the following sub-watersheds: Lower Wenatchee River, Mission Creek, Icicle Creek, Chumstick Creek, and Privately owned riparian parcels on the Chiwawa, Little Wenatchee, White, Chiwaukum, and Lake Wenatchee subwatersheds. Thus, the project area spans Category 1, 2 and 3 subwatersheds which include Major and Minor spawning areas for Spring and Summer Chinook, steelhead, and bull trout. Riparian restoration addresses habitat diversity and quantity, riparian habitat, water temperature, and sediment reduction limiting factors. Once the existing site characterization is completed, project sponsors will be able to identify high priority riparian restoration sites. The characterization will identify individual projects sites and highlight opportunities for coupling several sites together for reach-based riparian project implementation. The characterization and prioritization also helps communicate the need and priority for restoring riparian plant communities with landowners and potential funders.

Describe existing project site conditions.

Riparian habitat within the Wenatchee watershed is currently a mix of natural areas , orchards, other agricultural uses, commercial/industrial, and residential.

Describe any proposed ground disturbing activities. That is, will a tool(s) be used to move earth (soil, rock, gra

PROJECT REVIEW SHEET - EZ1

HISTORIC & CULTURAL RESOURCES REVIEW

Will buildings be altered or demolished? If so please complete a DAHP Determination of Eligibility EZ2 form for each building affected by the proposed project and attach the form to your project in PRISM. <http://www.dahp.wa.gov/pages/Documents/Sites.htm>

PROJECT REVIEW SHEET - EZ1

HISTORIC & CULTURAL RESOURCES REVIEW

If no PRISM map, please attach a copy of the relevant portion of a 7.5 series
USGS quad map and outline the project impact area.
(USGS Quad maps are available on-line at <http://www.topozone.com>)
